ALL PRODUCTS ARE DESIGNED FOR MOBILITY, THERAPY, RECREATION, FUN, AND FREEDOM!

Physical Therapy Made Fun!

Freedom Concepts products can be customized and adjusted to the exact specifications and unique requirements of the user. Our products are safe, comfortable, portable, and most importantly, accessible. Freedom Concepts has always been known for its ability to take on custom builds or innovate something new.

GIVE US THE NEED, WE WILL FIND THE ...CONCEPT!

Adaptive Tricycles

Discovery Series

The Discovery Series is our line of pediatric upright adaptive tricycles designed to introduce children and early teens to biking. It can help riders gain independence and increase their mobility.

SERIES SPECIFICATIONS:

Inseam Range: 10" - 26"
Max Load: 150 lbs
Rider Age: 18 months - 14 years
Models: DCP Mini, DCP12, DCP16

DCP12

Adventurer Series

The Adventurer Series is our line of upright adaptive tricycles designed for our teen and adult riders. This series provides plenty of room for growth, so riders can enjoy the freedom of mobility for many years.

SERIES SPECIFICATIONS:

Inseam Range: 23" - 33"
Max Load: 225 - 300 lbs
Rider Age: 14+ years
Models: AS2000, AS2600

AS2000

Odyssey Series

The Odyssey Series is a semi-recumbent adaptive tricycle and is better suited for riders with stronger lower body abilities. This series features an adjustable seating system and low step-over height, allowing for easier transfers.

SERIES SPECIFICATIONS:

Inseam Range: 19" - 34"
Max Load: 225 lbs
Rider Age: 7+ years
Models: ASR16, ASR2011

ASR16

Excursion Series

The Excursion Series includes our adaptive tricycle that is built for two. It allows a parent or friend to control and propel the bike from the back position, while the front rider, regardless of ability, can still enjoy all the benefits of cycling.

SERIES SPECIFICATIONS:

Inseam Range (Front Rider): 18" - 28"
Max Combined Load: 400 lbs
Rider Age: 7+ years
Model: ET2611

ET2611

Expedition Handcycle Series

The Expedition Series is our line of upright, semi-recumbent and recumbent handcycles. All models are available with optional foot propulsion and an adjustable steering column to perfectly align with the individual's arm length, ensuring each tricycle meets the rider's specific needs. This series offers models for riders 4 years old and up and for a variety of needs including therapeutic, recreational or something a little more competitive.

SERIES SPECIFICATIONS:

Arm Length: 16" - 32"
Inseam Range: 13" - 34"
Max Load: 225 lbs
Rider Age: 4+ years
Models: Defier, EHDU12, EHDU16, EHDU20

Require Customization?

We can design and custom-build a bike that can be tailored to your own personal requirements.

CHILL-OUT CHAIR

ALTERNATIVE SEATING™

Seating and Positioning Dedicated to Your Comfort, Support and Style

Freedom Concepts' line of Chill-Out Chair alternative seating can help improve the user's positioning, providing the benefit of reduced transfers throughout the day and a comfortable seating experience. Offered in a rolling or rocking model, Chill-Out Chairs can be further customized with a variety of fabric styles and accessories to create a comfortable and supportive seating option for the user.

Roll'er

The Roll'er model is ideal for people of all ages and abilities. This chair provides an alternative seat system to a wheelchair and the rolling wheelbase can reduce the number of transfers required throughout the day – perfect for home, school or therapy settings. The wooden base allows for accessories such as the Feeding/Activity Tray, Ottoman Support Kit and Powder-Coated Push Bar to be added.

Accessories

A variety of accessory options such as Pelvic Belt, 3-Piece Foam Positioning Kit and Headrest are available to further improve positioning and help you get the most out of your Chill-Out Chair. All Chill-Out Chairs now come with a multi-use Modular Support Wedge to help dial in positioning and support where the user needs it most.

Fabric Options

Available in several functional fabric options - Easy-to-wipe vinyl, durable and stylish wovens, or comfortable plush fabrics all featuring Endurepel® providing anti-microbial and moisture repellent technology.

The Rock'er model is known for its adjustable tilt and calming rocking motion and is ideal for people of all ages and abilities. The chair can be locked into the optimal tilt position with the aid of the ottoman, setting the chair to the ideal angle of tilt suitable for the user's needs. The Multi-Purpose Ottoman also provides supported leg elevation and multiple accessory options are available to further customize the chair.

Rock'er

Multipurpose Ottoman

Standard with all Chill-Out Chairs, the Multi-Purpose Ottoman is designed to elevate legs, aid in passive stretching and reduce edema in the lower extremities. Use the Multipurpose Ottoman with the aid of the Velcro straps to set the chair to the ideal fixed tilt position to improve alignment, head control, breathing and pressure redistribution.

Foam Options

Chill-Out Chairs are available in two foam packages: Essential and TEC (the preferred choice for multi-use environments).

Contact us to learn which option would be best suited to fit your individual requirements.
